

LPPS PD on the GO

March 2022 Edition:

Take A Chance On New Tech Ideas

Social Media In The Classroom?!

No matter the age of your students, they are all pretty familiar with social media. They might use it themselves, or see their parents using it. Why not take that knowledge and turn it into student creation? Use these formats as a way for students to show mastery of content. Matt Miller from Ditch That Textbook has 14 Google Slide templates based off popular social media sites. Take a look at this blog post for copies of these templates, directions on how to use them, and ideas for your classroom.

VIDEO Candy

From the makers of PDF Candy, comes a free online video editing tool that gives you the ability to trim, compress, merge, crop, add music, change speed and much more to your videos.

Visit videocandy.com to try it out!

Improve Student Learning With Technology in Health & Physical Education

Check out cbhpe.org for ideas on how to incorporate technology into your lessons. There are lots of free resources, ideas, and instructional GIFs, and lesson ideas.

Jazz Up Your QR Codes!

Want to add a little more character to your QR Codes? Check out QRtoon.com. It is a free service that takes an image you upload and turns it into a cartoon inside of a QR code. Think of the possibilities!

Historical people or book character images linked to a QR code for a presentation or student created podcast

Science structure image with the QR code linked to a student created video or projet.

Quick Formative Assessment

Looking for new ways to get a pulse on how students are understanding lessons? Check out this Dice Debrief idea from Stephanie Howell. Grab a copy here: bit.ly/3HPmAFu

Don't forget there are virtual dice in classroomscreen.com as well as in the classroom tools gadget of your Newline panel!

DICE DEBRIEF

<p>Name one new thing you learned today</p>	<p>Acknowledge someone for a job well done.</p>
<p>Describe a good idea you heard.</p>	<p>Describe a feeling you experienced</p>
<p>Describe something that pushed you outside your comfort zone</p>	<p>How will you apply what you learned today?</p>

Blended Learning Spotlight

Mrs. Winters at Seventh Ward Elementary School utilizes the station rotation model with laptops. This is a good way to get started with blended learning. Visit bit.ly/LPRotation for more information and templates you can use with your class.
